Free Christmas Wall Art

Five cozy 8x10 prints to frame, gift, or swap in for the season

How to print

- Print at 100% / "actual size" on matte cardstock or heavy paper (the heavier, the better).
- Each print is 8x10 inches. Trim the white border and it fits any standard 8x10 frame, or an 11x14 frame with an 8x10 mat for a gallery look.
- For the richest color, use your printer's "best" or "photo" quality setting.
- Want a bigger size? Any local print shop can print these at 11x14.

Styling ideas

- Hang the snowy village alone above the mantel; it carries a whole wall.
- Group the bouquet, wreath and holly prints as a trio above the sofa.
- Lean the mid-century trees on a sideboard with candles and greenery.
- Frame one as a gift: an 8x10 frame plus a print makes a lovely hostess gift.
